 @JustinMartz

Castle Rock, CO

PROFILE

Java full-stack developer bootcamp graduate experienced in front-end technologies like Angular, back-end technologies like Spring Framework and MySQL, and team programming with git and Agile workflow.

PROJECTS

Duality (Skill Distillery Final Project) - Team Project

Full-stack web app using Angular, Bootstrap, Spring Security, MySQL. Duality allows users to track their behaviors and their intensities as it pertains to bi-polar disorder. Users connect with others via posts and comments.

<https://github.com/JustinMartz/FinalProject>

GuitarTech (Skill Distillery) - Individual Project

Full-stack web app with Angular, custom CSS, Spring JPA, MySQL. GuitarTech serves the need of keeping track of your guitars and their setups (maintenance records). Also links to pure JavaScript version.

EXPERIENCE

Full-stack Developer Bootcamp, Skill Distillery — May - September 2023

Intense, immersive programming curriculum teaching Java and OO concepts, JavaScript and full-stack technologies, TDD, unit testing, debugging, version control, and Agile workflow through instruction, labs, homework, and team projects.

Store Manager, Mr. B's Wine & Sprits — 2012 - 2019

Hired, trained, and led a small staff of specialists and managers. Managed daily business operations: receiving, ordering, sales, staffing. Organized and led staff meetings, daily "shift notes" communications with ownership, and staff schedules.

EDUCATION

Skill Distillery — Certificate, 2023
